

# What to Expect This Summer

Our 2026 Camp, Summer of Imagination: Where Creativity Takes Flight, is built around hands on learning, curiosity, movement, and fun!

## Here's what you can expect when your child joins us:

### A warm, welcoming start to each day

Children jump into age appropriate activities, group play, and creative stations as soon as they arrive.

### Weekly themes that spark imagination

Each week brings a new adventure. Campers explore art, STEM challenges, outdoor activities, storytelling, building projects, and team games.

### Special experiences

School age campers will enjoy both in house and off site field trips. Younger campers will participate in on site experiences designed just for them.

### Hands on learning through play

Children experiment, create, problem solve, and collaborate with friends in a fun and supportive environment.

### Camp gear

Every camper receives a camp t shirt, and school age campers will receive a full kit with a t shirt, backpack, and ID wristband.

### Safe, consistent routines

Our teachers guide campers through each day with clear expectations, safe transitions, and plenty of time for movement and connection.
